[Video opens on wide aerial shot of the Lancaster Campus.]

VOICEOVER:
Thank you for joining us on the tour of HACC's Lancaster Campus.

[The HACC logo and "Lancaster Campus" appear over the aerial shot.]

VO:
We welcome students from surrounding counties, local school districts, and online. The campus offers an abundance of resources to enrich the body and mind,

[Two photos of students on campus slide on screen.]

VO:
including a trail and sitting areas outside.

[The shots slide off and two new images slide on. The first is of the Main Building and the second is of the East Building.]

VO:
It has two beautiful buildings, Main and East.

[The shots slide off and a shot of the Welcome Center appears.]

VO:
The Welcome Center, located inside the Main Building, is a hub that allows students to get started on their HACC experience and seek assistance with applying, registering, and paying for classes.

[The shot fades out and a shot of Welcome Center doors appear. A label rises under the image reading "Financial Aid." The label sidles down and the image fades to a shot of the windows of the Welcome Center.]

VO:
Students can learn about the financial aid process, including FAFSA, student employment, and scholarships, with HACC's financial aid team.

[The shot slides into a photo of the Welcome Center. A series of two labels appear under the image reading "Advising Center" and "Student Access Services."]

VO:
HACC's academic advisors provide program information and assistance with scheduling classes. Other services in this office include career services and Student Access Services. Student Access Services provides support for students requiring accommodations for disabilities, temporary or permanent.

[The photo slides into a shot of the Public Safety and Security office. A label rises under the image reading "Public Safety & Security." The photo slides into a series of two different images of a security officer chatting with a student.]

VO:
HACC's Public Safety and Security Department provides public safety services to the
HACC community. Along with ensuring the safety of students, staff and visitors, the security officers
provide security escorts and lock-out and jump start vehicle services.

[The shot slides into a photo of the Lancaster bookstore. A label rises under the image reading
"Bookstore."]

VO:
All HACC textbooks can be ordered from the official college website, as well as school supplies and
HACC gear.

[The image slides to a shot of a student on a laptop. A label rises under the image reading "Brossman
Library." The label slides down and a panning shot of the library appears.]

VO:
HACC's library provides research assistance, technology loans, streaming videos, books, media,
research databases and more.

[The video slides to a shot of the SGA offices. A label rises under the image reading "Student
Government Association."]

VO:
Students can connect through HACC's Student Development and Multicultural Programming
and interact through various clubs and organizations.

[The photo slides into an image of the fitness center. A label rises under the image reading "Fitness
Center."]

VO:
HACC's Fitness Center is free to all current students with a student ID.

[The shot slides into photo of the Footnotes Café. A label rises under the image reading "Footnotes
Café."]

VO:
In the Footnotes Cafe, students can utilize the open space for studying, or grabbing a quick bite to
eat.

[The image slides into a shot of the community room. A label rises under the image reading
"Community Room." The image fades into a shot of an event occurring in the room.]

VO:
In the community room, students can attend networking events, or listen to guest speakers as they
visit HACC Lancaster.

[The video slides to an aerial shot of the garden room. A label rises under the image reading
"Garden."]

VO:

The garden room is the perfect place to relax in between classes and get sunlight.

[The video slides off screen and two images slide on screen of the nursing labs. A label rises under the image reading "Nursing."]

VO:
The nursing program has state of the art equipment for students to gain hands-on experience.

[The images slide into a shot of the allied heath lab. A label rises under the image reading "Allied Health." The label disappears and the image scales down and moves to the upper left corner. Three video clips pop on in the remaining corners showing sonography technology.]

VO:
In the allied health lab, students practice using EKG machines and taking blood pressures. The lab also houses the Cardiac Sonography Program and the Invasive Cardiovascular Technology Program.

[The images slide off screen and two new image slide on screen of the Radiology Technology labs. A label rises under the images reading "Radiology Technology Lab."]

VO:
Students receive hands-on learning experience in our radiology technology labs. Students produce X-ray images electronically with computed radiography or digital imaging equipment.

[The images slide off screen and two new images slide on screen of biology labs. A label rises under the images reading "Biology Labs."]

VO:
Students will have the opportunity to gain hands-on experience in our biology labs.

[The images slide off screen and two new images slide on screen of early childhood program classrooms. A label rises under the images reading "Early Childhood Program."]

VO:
Students interested in Early Childhood Care and Education or Early Childhood - Elementary Education programs will spend time in an interactive classroom.

[The images slide off screen and a new image slides on screen of a collaboration classroom. A label rises under the images reading "Collaboration Classroom." The image slides into a shot of the collaboration classroom in use.]

VO:
The collaboration classroom is equipped with modern equipment such as smartboard technology and projection technology to provide learning flexibility for students. The Mac lab is used by students in graphic design and digital art programs. The art room has lots of space for working on any large- or small-scale projects. Be sure to visit the Art Space that features the work of local artists and HACC students. The U-GRO Learning Centre on campus is open to HACC's students, faculty, and staff, as well as the general Lancaster community for on-site daycare. Thank you for joining us on the tour of HACC's Lancaster Campus. If you have any questions, please email start@hacc.edu.

[The photo slides into a photo of a Mac computer lab. A label rises under the images reading "Mac Lab."]

VO:
The Mac lab is used by students in graphic design and digital art programs.

[The photo slides into a photo of the art classroom. A label rises under the images reading "Art Room."]

VO:
The art room has lots of space for working on any large- or small-scale projects.

[The photo slides to a shot of the Art Space sign. It fades into a shot of the gallery. A label rises under the shot reading "Art Space."]

VO:
Be sure to visit the Art Space that features the work of local artists and HACC students.

[The shot slides into an aerial shot of the Lancaster Campus."]

VO:
The U-GRO Learning Centre on campus is open to HACC's students, faculty, and staff, as well as the general Lancaster community for on-site daycare.

[The shot fades into a shot of employees standing in front of the Main Building entrance smiling and waving. The text start@hacc.edu appears in the center of the screen.]
